

ABOUT THE MODERATOR

Mansoor Madani, DMD is an accomplished author, speaker and pioneering oral and maxillofacial surgeon who is internationally known for his research on snoring, sleep apnea and laser treatment. Dr. Madani is a graduate of Pahlavi University and the University of Pennsylvania. He is a diplomate of the American Board of Oral and Maxillofacial Surgery and a fellow of the American Association of Oral and Maxillofacial Surgeons. Dr. Madani is the chairman of the department of Oral and Maxillofacial Surgery at Capital Health System in New Jersey. He is an associate professor of Oral and Maxillofacial Surgery at Temple University Hospital and the director of Bala Institute of Oral Surgery. Dr. Madani has written numerous articles in peer-reviewed journals as well as book chapters. He was the guest editor of one of the issues in the prestigious Atlas of Oral & Maxillofacial Surgery Clinics of North America. He is frequently invited to present on various subjects in both national and international scientific and professional organizations. His presentations are well researched and relevant to the daily practice of various practitioners and their support staff. He has developed multiple online courses in various subjects.

MISSION STATEMENT

Our mission is to provide dental and medical professionals with educational, useful, and mandatory courses that are relevant to daily practices and applicable to all levels of the dental and medical community. Our goal is to promote and encourage lifelong education by presenting well researched programs both at conferences and online settings. Furthermore, we aim to inspire and assist our audience to attain higher levels of knowledge, skills, and competence.

ONLINE CONTINUING EDUCATION COURSES

The following courses are available on our YouTube channel for continuing education credits through the AGD Pace Program and can be taken anytime. Be sure to subscribe for updates.

- Pain Classification and Mechanism of Action (1 CE)
- Opioid Addiction and Red Flags in Prescription Writing (1 CE)
- Guidelines on the Use of Opioids in the Dental Practice (1 CE)
- The History of Opioid Discoveries (2 CE)
- Child Abuse Recognition and Reporting Training (2 CE)
- Adult & Pediatric Medical Emergencies (4 CE)
- Marijuana: What Healthcare Professionals Should Know (1 CE)
- The Face of Trauma: Navigating The Complex World of Facial Injuries (1 CE)

ONLINE COURSES PRESENTED BY:
MANSOOR MADANI, DMD

CHILD ABUSE COURSE: As a condition of biennial renewal, all health related licensees are **REQUIRED** to complete two hours of Board approved training on the topic of child abuse recognition and reporting.

PAIN MANAGEMENT COURSE: As a condition of biennial renewal, licenses issued by the Board that are considered prescribers or dispensers shall be **REQUIRED** to complete at least two hours of Board approved training in pain management, identification of addiction or the practices of prescribing or dispensing of opioids as a condition of renewal.

This Child Abuse Recognition and Reporting course is approved by the Department of Human Services to meet the requirements of Act 31 of 2014 for ALL Pennsylvania licensed professionals, including both mandated and permissive reporters.

Continuing education credits are required for each biennial period which runs from April 1 to March 31 of the odd-numbered years. The requirements are as follows and 50% must be in person.

Dentist: 30 hours
Dental Hygienist: 20 hours
EFDA: 10 hours

ARTIFICIAL INTELLIGENCE IN DENTISTRY

The presentation will explore the distinctions between Human Intelligence and Artificial Intelligence. It will delve into the use of AI algorithms for managing dental practices, diagnostic applications, and various specialties within dentistry, as well as for dental laboratories. We will also review the American Dental Association's white paper on AI and discuss future developments such as Augmented Intelligence, robotics, and automation.

SPEAKER: Mel Mupparapu, DMD

Director of Radiology, Department of Oral Medicine, Penn Dental Medicine

COURSE GOALS AND LEARNING OBJECTIVES:

- Discuss the role of AI as a tool for dental practice management
- Present the role of large language models like Chat GPT, Google Gemini, and IBM's Watson in dental education and practice
- Present the various forms of AI such as the machine learning, deep learning and active learning as it applies to dentistry
- Present AI applications in oral medicine, diagnostic radiology, endodontics, pathology, implantology, periodontology, orthodontics, restorative dentistry, and prosthodontics
- Discuss and understand the role of Augmented Intelligence, Robotics and Automation as it relates to dentistry

MASTERING MEDICAL EMERGENCIES: FROM PANIC TO PROTOCOL

Although the State Board of Dentistry has not mandated continuing education for medical emergencies, we believe this topic should be reconsidered before license renewal. Emergency situations can be stressful, but proper training and protocols can help ensure patient safety. We recommend that both practitioners and their teams take this course. A few hours of investment can significantly enhance your ability to save lives and reduce stress. Our course provides practical insights to prepare you and your team for daily challenges in dental practice.

SPEAKER: Mansoor Madani, DMD

Chairman, Department of Oral Surgery, Capital Health System

COURSE GOALS AND LEARNING OBJECTIVES:

- Effectively analyze and utilize a medical history questionnaire
- List and demonstrate the proper use of items in a medical emergency kit
- Identify red flags in the medical history that need further investigation
- Create a medical emergency management plan for your dental office and be able to calmly execute it
- Recognize signs and symptoms of common medical emergencies and demonstrate appropriate responses
- Understand potential outcomes for patients with pulmonary, cerebrovascular, cardiovascular diseases, insulin reactions, diabetic coma, syncope, seizures, and allergic reactions

Saturday, March 1, 2025
Philadelphia College of Osteopathic Medicine
4170 City Avenue
Hassman Academic Center
Philadelphia, PA
8:00 AM - 3:00 PM

MARCH 1, 2025 COURSE FEES
